

PAPER TYPE: D

COMPREHENSION: Read each passage carefully and answer the questions that follow it

PASSAGE I

In 1962, a team of scientists produce a special radio station that had a range of fifteen miles. Even though communication was being accomplished in space at a range of more than a million times this distance, the new radio station caused much excitement among scientist.

The reason: its power supply was a 'battery' made of bacteria. For the first time, practical amounts of electricity were being produced by a form of life and put to use. Bio cell, the new power supply had a liquid fuel containing tiny forms of life that changed the fuel directly into electric energy; this was far more than an interesting

experiment. The bio cell is being develop as producers of electricity for radio, for signal to guide ship, for lighting and other uses.

Though the working bio cell is only a few years old, some scientist feels that it will one day produce power cheaply as is now being done by other method, and that the bio cell will use materials that would otherwise be consider a waste.

Early bio cells were powered with sugar, but a wide range of fuel can be used. Work is being done using sea water to feed the bacteria.

Electricity from living cells is no new idea. Man experience the strange shock produce by some fish even before electricity was really discovered.

Then in time, there were other discoveries. Benjamin Franklin found that lightening in the sky

was electricity. Luigi Galvani found some electricity in the muscles and nerves of animals, but the African catfish produce far more electricity than most other living creatures.

And other fish, the electric eel, well named, for it has an even greater electric charge. Research works also discovered that even humans produce small amount of electricity in their bodies.

Our heart produces a very small amount that can be measured, so do our brain. The bio cell is completely new in the field of power production and as yet, no mass-production models have begun to replace the older type of batteries.

Its might be wondered, then, what the excitement is all about.

1. Which question paper type of use of English is giving to you?

(a) Type A

(b) Type B

(c) Type C

(d) Type D

2. The writer's posture, as conveyed in the statement Electricity from living cells is no new idea, can be describe as

(a) Ineffectual

(b) Contentious

(c) Logical

(d) unguarded

3. Which of the following is true according to the passage?

(a) Scientist felt that bio-cell would produce very costly energy

(b) Bio cell, at the beginning, derived their energy from sugar

(C) Sugar and fuel were initially used as source of energy for bio cells

(d) Bio cells were forms of power used by the scientists

4. The inventor of biocell justified the need for it by saying that would

- (a) develop ways for changing bio cell into fuel for use
- (b) yield a source of energy without much spending
- (c) produce electricity for all type of machines
- (d) produce signal to guide all ship and other vessels

5. According to the passage, electricity was first discover in

- (a) heart and brains
- (b) muscles of animals
- (c) lightning
- (d) fish.

PASSAGE II

Like a clock with the pendulum in full swing, the mind moves as fast as time. But we ought to mind our thoughts for if they turn to be our enemies, they will be too many

for us and will drag us down to ruin.

But some people may say that they cannot help having bad thought even though they sting like vipers. That may be so, but the question is, do they hate them or not?

We cannot keep thieves from looking in at our window, but if we open our doors to them and receive them joyfully, we are as bad as they.

We cannot help the birds flying over our head; but we may keep them from building their nests in our hair. Vain thought will knock at the door but we must not open to them. Though bad and evil thought rise in our hearts, they must not be allowed to reign.

He who turns a morsel over and over in his mouth does so because he likes the flavour, and he who meditate upon evil, love

it, and is ripe to commit it. Think of the devil, and he will appear, turn your thought toward evil and your hands will soon follow.

Snails leaves their slime behind them, and so do vain thought. An arrow may fly through the air, and leaves no trace, but an evil thought always leaves a trail like a serpent.

Where there is much traffic of bad thinking, there will be much mire and dirt. Every wave of wicked thought adds something to the corruption which rots upon the shore of life. It is dreadful to think that a vile imagination, once indulge, gets the key of our minds, and can get in again very easily, whether or not we let it in, and what may follow, no one knows.

Nurse evil on the laps of thought, and it will grow into a giant. Therefore; there is wisdom in

watching every day, the thought and imagination of our heart.

Good thoughts are blessed guest and should be welcome, and much sought after, but bad thought must fly out as swiftly as they moved in.

6. Which of the following represents the writer's view in the passage?

- (a) evil thought may come but there is virtue in keeping them out
- (b) evil thought will continue to sting us like vipers as long as there are enemies who cause offence
- (c) like the pendulum, evil thought will always come to our mind no matter what we do
- (d) like most birds, evil thoughts fly swiftly in our minds without perching

7. Which of the following statement represent the view

expressed by the writer in the first paragraph?

- (a) evil thought will eventually ruin the evil man
- (b) if we do not stop the pendulum of thought from swinging, our thoughts will soon become our enemies
- (c) To many evil thoughts leave fatal consequences
- (d) it is possible to decide what control our thoughts

8. From the argument in the second paragraph, it can be concluded that evil thought control the lives of people who

- (a) Are helpless because they fly out of their minds
- (b) cherries idle and slothful ways
- (c) are thieves with evil instincts
- (d) treasures and ruminate on them

9. The expression 'Think of the devil and he will appear.....', as used in the passage suggests that

- (a) likes the devil evil thoughts must not reign in our hearts
- (b) evil thoughts are fantasies which exist only in people's mind
- (c) uncontrolled evil thoughts may lead to evil deeds
- (d) the devil gives evil thoughts only to those who invite him in

10. which of the following statement summarizes the argument of the fourth paragraph

- (a) heavy traffic on a miry and dirty road may lead to evil thoughts
- (b) the more evil we think, the more vile we are likely to become
- (c) evil people should not be welcome as guest in our homes the same way we welcome good people
- (d) evil thoughts control the key to human heart and no one can keep them out

PASSAGE III

Though assumption is the lowest level of knowledge; it is still a form of knowledge, and knowledge is key. Assumptions are the foundation upon which interpretation and conclusion are built.

Everything in life operate under certain assumptions. We make management decisions based on the assumptions we hold about how management ought to function and how people ought to be governed.

For some of us, we consciously imbibe assumptions and principles about life and consciously decide based on them; for others, it is unconsciously but potent all the same. Our assumptions will either drown us or help us soar through life.

We have always seen life as an immense mansion with many

rooms. Some rooms lead to wealth, others to the opposite.

Ultimately, we decide where we end up; and life, thus far, has proved that not everyone of us decides well, we all behave differently where we have different levels of understanding, and behave the way where our understanding is the same.

We eat because we all understand the consequences of not eating. We all wear clothes because each of us comprehends lunacy. The list goes on and on. It is inevitable that some of us will make choices that get and keep us on the lower rung of the ladder by reason of exposure, training or some others variables.

Life is about role playing. We choose our roles wisely or foolishly, consciously or unconsciously. Some of us get wiser to new levels of self-awareness enough to redefine our

roles, others make no effort to build further capacity and therefore remain where they are.

It is based on those realities that we draw the conclusion that not everyone will be wealthy in life. We lead, inspire and motivate people to strive and succeed.

It is also important that we paint the full and true picture of life so that we can discourage vain pursuits. Balance must be enthroned as a critical component of truth, and people know, for instance, that 'the top' is not a place that all must ascend.

Our greatest consolation lies in our deep conviction that true prosperity is in fulfilment through hard work than in intangible acquisition. There are set roles that some of us have been wired up to play in life but which we are not content enough to play because society esteems such roles to be inferior.

Take the almost scared office of a teacher for instance; there are people who have the natural gifts and inclinations to be school teacher. But teaching profession, as it is, does not appear to be lucrative. So we have people who could have been more fulfilled and effective working as school teacher serving in banks.

11. According to the writer, people lead and motivate others because they want to

- (a) project individual contribution
- (b) encourage selfless service
- (c) make the world a home
- (d) prevent empty search

12. According to the passage, balance must be enthroned because it is

- (a) a critical interdependent function
- (b) an amazing help for conscience
- (c) a critical part of fidelity

(d) a serious way of ensuring success.

13. The word inclinations, as in the passage means

- (a) creeds
- (b) tendencies
- (c) inhibitions
- (d) power.

14. Which of the following statements is true according to the passage?

- (a) greatness in life emerges when square pegs are put in round holes
- (b) people do certain things in life because they know the repercussion
- (c) people agree on all issues and behave the same way for the same reason
- (d) understanding life at different levels gives no account of visible acquisition.

15. From the passage, it can be inferred that

- (a) People insincerely discuss facts that govern their behaviour
- (b) all managerial decisions are based on assumptions.
- (c) people make conscious effort to acquire hidden knowledge
- (d) all things in life exist on some belies.
